PROFILE SUMMARY

Senior Full Stack Developer with 5+ years of experience designing, developing, and delivering scalable, high-traffic, data-intensive web applications across cloud-native environments. Expertise in React, TypeScript, JavaScript, HTML/CSS, and .NET Core, with strong experience building microservices, RESTful APIs, and enterprise-grade solutions integrated with ERP/WMS and backend systems. Proven ability to lead end-to-end solution design, collaborate with stakeholders, and deliver secure, performant, and scalable applications supporting eCommerce, order management, and data-driven workflows. Experienced in CI/CD, DevOps, and Azure cloud services. Strong mentor and contributor to engineering best practices.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, Webpack, Responsive & Adaptive Design, Accessibility (WCAG)
- **Backend:** .NET Core, ASP.NET MVC, Web API, RESTful Services, Microservices Architecture, Entity Framework Core, LINQ
- **Cloud & DevOps:** Microsoft Azure (App Services, AKS, Functions, Key Vault, Logic Apps), Docker, Kubernetes, CI/CD (Jenkins, GitHub Actions, Azure DevOps)
- **Databases:** SQL Server, PostgreSQL, MySQL, Oracle, MongoDB, Cosmos DB, Snowflake
- **Tools:** Git, Jira, Bitbucket, Postman, SSMS, SSRS, Terraform
- **Practices:** Agile (Scrum), SOLID Principles, Design Patterns, Domain-Driven Development, Test-Driven Development, CI/CD Pipelines, Performance Optimization

BOOKS

- **Clean Code** by robert c. martin (unclebob)
- **Clean Architecture** by robert c. martin (unclebob)
- **System Design Interview** by alex Xu
- **Domain Driven Design** by Eric Evans (currently reading)

EXPERIENCE

IT Developer – Hana Tech. (Client- Morgan Stanley) Memphis, Tennessee, USA

Full-Time

Aug 2024 - Present

- Led end-to-end development of scalable web applications supporting high-volume, data-intensive workflows, improving system performance and reliability.
- Designed and developed responsive, mobile-first UI using React, TypeScript, and modern frontend practices ensuring seamless user experience.
- Built and integrated RESTful APIs with backend .NET services enabling efficient data exchange across enterprise systems.
- Developed microservices deployed on Azure Kubernetes Service (AKS), improving scalability and fault tolerance.
- Collaborated with business stakeholders to gather requirements and translate them into technical solutions and system designs.
- Implemented CI/CD pipelines using Jenkins, GitHub Actions, and Azure DevOps, reducing deployment time and improving

release quality.

- Worked on systems handling large-scale transactional data, similar to order processing and workflow management systems.
- Optimized SQL queries and database performance for high-volume data processing and reporting.
- Integrated third-party APIs and backend services including enterprise data systems.
- Created technical documentation, API specifications, and system design documents for maintainability.
- Improved application performance using lazy loading, code splitting, and frontend optimization techniques.
- Participated in Agile ceremonies, sprint planning, and continuous delivery processes.

Developer – Tata Consultancy Services Hyderabad, Telangana, India

Full-Time

December 2019-May 2022

- Developed and modernized 140+ enterprise applications using .NET, improving scalability, maintainability, and performance.
- Built and maintained full stack applications using Angular/React and ASP.NET backend services.
- Designed and deployed microservices architectures using Docker and Kubernetes for scalable enterprise applications.
- Automated CI/CD pipelines enabling faster releases and reduced manual intervention.
- Collaborated with cross-functional teams including business analysts and stakeholders to deliver integrated solutions.
- Worked on high-availability systems requiring strong SLA adherence and performance optimization.
- Designed and optimized complex SQL queries, stored procedures, and data workflows.
- Participated in defect triaging, root cause analysis, and resolution for production issues.
- Contributed to system design discussions and implementation of best practices and coding standards.

EDUCATION

- Master's in management information systems, The University of Memphis (UofM), Memphis, TN May 2024
- Bachelors in ME-Jawaharlal Nehru Technological University, Hyderabad, India April 2019

CERTIFICATIONS

- Microsoft Azure Developer (**AZ-204**) | Fundamentals (**AZ-900**) | Data Fundamentals (**DP-900**) | AI Fundamentals (**AI-900**)
- **Atlassian Agile** Project Management Professional Certificate
- Career Essentials in GitHub **by GitHub**
- Postman API Fundamentals Student Expert certification
